GLOBAL ALERT ON WASTE

America's growing waste problem is monumental. We generate more than 160 million tons of garbage a year. Our Nation's landfills are being filled up. In a few short years landfill space will be extremely limited. Here are the statistics: paper and paperboard make up about 36%, glass and metal about 9% each, all by weight and plastic about 20% volume.

The answer lies in recycling. Every recyclable should be recycled. Yard waste. Paper. Metal cans. Glass bottles and plastic.

RECYCLING. IT PAYS. DO IT NOW.
