

WILSON A. RIVERA

A Brut of a racer

Sgt. Carson Lang and Pvt. Christopher Rogers, 4th Brigade Combat Team, 1st Cavalry, look into the chassis of the Brut Funny Racing Car Wednesday. As part of the Vitalis Sun Bowl Fan Fiesta events, the Brut Funny Racing Car was showcased at the Post Exchange Dec. 27 and 28. The painted part of the automobile's body is unused and prepped to be raced while the metal undercarriage supporting the 2,350-pound engine has been raced using Goodyear tires more than 15 times. The 500 cubic inch Dodge Hemi engine runs off of 85 percent Nitro Methane Fuel creating 8,000 horsepower launching the body and frame from zero to 330 mph down the dragstrip in 4.7 seconds.
