

CATRINA FRANCIS

Maintenance awards for excellence

Fort Bliss Commanding General, Brig. Gen Robert P. Lennox, congratulates Soldiers from Headquarters and Headquarters Battery, 2nd Battalion and presents them an Award for Maintenance Excellence. HHB, 2nd Bn. was the winner in the Training and Doctrine Command Small Category in the Table of Distribution and Allowances for fiscal year 2005. Throughout FY05, the mechanics maintained an average operational readiness rate of 99 percent for ground equipment, 96 percent for the Avenger systems and 99 percent for the Sentinel Radar systems. The 3rd Bn., 6th ADA was presented an award for runner-up in the large category. Within a very resource constrained environment, the battalion performed a 24-hour maintenance mission that supported an equipment readiness rate of more than 90 percent. D Company, 1st Bn. was presented the award as the runner-up for the small category. The unit maintains equipment that is in continuous use by the advance individual training and officer basic course students. Their timely and efficient maintenance ensured no class was delayed because of equipment downtime.

LASIK at Schuster Eye Center... 2 LASERS ARE BETTER THAN 1

Lody

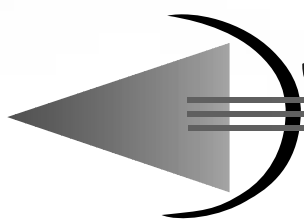

ONE, to gently create a flap of perfect dimensions by separating, not cutting, layers of the cornea using an IntraLase Laser – this method is the 1st step in LASIK exclusively available at Schuster Eye Center.

TWO, to produce a perfect treatment pattern to correct nearsightedness, farsightedness and/or astigmatism. The VISX Star S4 Excimer Laser makes a custom fingerprint of your specific, unique eye – with a Wavefront Guided Custom Treatment.

- No cost to learn more!
- Two Lasers minus One Blade = Better, Safer chance for a 20/20 result.
- Dr. Schuster is a 3rd generation eye surgeon in El Paso with over 30 years of experience.

LASIK
