Continued from Page 5

the battalion motor pool and then convoyed with 12 vehicles to the El Paso Municipal Service Center located on San Paulo Drive. Officers from the El Paso Police Department and Fort Bliss Department of Defense blocked civilian traffic during the convoy to keep the convoy together and running smoothly.

Officer David Salcedo, EPPD, said the police department is thankful for the help of the Soldiers. "By them coming out here, it helps us out a lot. There's no way we could come up with a hundred extra people to fill sandbags."

After an hour of constant work the Soldiers completed almost half of their specified mission by filling nearly 2,000 sandbags.

The director of the El Paso street department was grateful for the help from 2-43 ADA. "We're extremely grateful; the Soldiers are a part of our community," Daryl Cole said. "With them coming out here and helping in a time of need, they're showing that El Paso and Fort Bliss are the same community."

Cole said the city had put out 80,000 sandbags to area residents, but there we're still some in dire need of more. "I just got done placing an order for 10,000 more [sandbags]. We've had our annual rainfall in the last 48 hours, and we're expecting more rain. We need to get these sandbags out to the public."

Most of the Soldiers didn't mind the hard work and extra time on duty. "Although this was a tasking, 99 percent of the Soldiers on this tasking were volunteers," Sgt. 1st Class Darrell Daniels said.

Daniels said the flooding had an impact on Soldiers as well as El Paso civilians. "I live in the northeast, and we've had some flooding. As a military Soldier or even as a federal employee, it's important to keep that rapport with the community. They know we go overseas and get the job done; but it's also important that people know that we'll help at home, too."

The troops from 2-43 ADA were called to fill sandbags Friday and Saturday as well. In the three days of "Strength in honor" Soldiers filled 25,000 sandbags.

"Strength in Honor" Soldiers almost empty sand from a metal container. The 2-43 ADA Soldiers filled nearly 2,000 sandbags in one hour.

(Left) A Soldier ties a sandbag shut after it is filled.
